# INEXUS GROUP (HOLDINGS) LIMITED

## ENVIRONMENTAL STATEMENT OF INTENT

### INTRODUCTION

The Environmental Policy of Inexus Group (Holdings) Limited (“Inexus”) will apply to Inexus and all of its UK subsidiary operating companies including Connect Utilities Limited, Envoy Asset Management Limited and Inexus Services Limited.

With its experience in the utility/energy/water/land development sectors, Inexus will actively seek out and promote commercially-viable and environment-friendly solutions to current and future problems.

This Statement of Intent explains the scope, objectives and targets of the Group Environmental Policy.

### ENVIRONMENTAL POLICY STATEMENT

Inexus is an independent utility infrastructure provider for the new build housing market. The Company supplies utility infrastructure to all the major developers and hundreds of smaller independent builders in the UK. Inexus also manages, owns and operates utility infrastructure assets across the UK.

The Group shall avoid, minimise and appropriately mitigate adverse environmental impacts. These undertakings extend to the office administration, design, construction both on and off site, commissioning, maintenance and operation of its gas, water and electric network systems and associated apparatus.

### OBJECTIVES

To support the performance of the Groups responsibilities and undertakings, as the Chief Executive, I hereby commit Inexus:

- To comply with all environmental laws, regulations and codes of practice, which will be regarded as a minimum standard that are applicable to the business, activities and processes undertaken
- The Group shall be committed to continuous improvement in its environmental performance including pollution prevention wherever reasonably possible
- To implement, maintain, review and continually improve the Environmental Management System
- To work in partnership with clients, contractors, sub-contractors and suppliers to ensure effective environmental management and quality
- To take positive action in order to Reduce, Reuse and Recycle all raw materials, minimise waste and to use all forms of resources efficiently

- To ensure that employees receive information and training appropriate to their functions and competency target concerning overall environmental awareness including relevant emergency procedures
- To encourage employees to communicate with the Group about ways to increase the effectiveness of Company practices thus supporting this Statement of Intent

Each Inexus employee is charged to exercise their responsibility, through their acts and omissions, on behalf of the Group to ensure that the intentions of the Policy Statement of Intent are diligently carried out.

This Statement of Intent will be available to all employees, contractors and suppliers. The Group will also make available the Statement of Intent to members of the public upon request.
